

The same Profiles are used for versions 1 and 2 of the simulation.

Each student will receive one of the profiles below. They will then show the profiles to one of the leaders at the table giving out Voting Outcomes. The Voting Outcomes will be given randomly based on the possible outcomes for that profile, with one of Voting Outcome for 36 students, except for Voting Outcome 1 (you get to vote), of which there will be 9 (75% of students will get cards giving a reason why they weren't able to vote).

When they go to the Voting

Profile 1

You work full time. You have no kids. You have a car.

Possible Voting Outcomes: 1, 7, 11, 12, 13, 14, 15, 16, 17, 20, 27
